Proposal 4: Determination of the Amount of the Compensation, etc. for Directors (excluding Directors Who Are Audit and Supervisory Committee Members)

The maximum amount of compensation, etc. for Directors of the Company was resolved as “within 316 million yen per year (including compensation of within 30 million yen per year for Outside Directors)” at the 62nd Ordinary General Meeting of Shareholders held on June 24, 2015, and that has continued to this day. Subject to the approval of Proposal 1 “Partial Amendments to the Articles of Incorporation,” the Company shall transition to a Company with an Audit and Supervisory Committee. Accordingly, in consideration of various circumstances such as recent economic conditions, the Company proposes that the amount of compensation, etc. for Directors (excluding Directors who are Audit and Supervisory Committee Members) be set to “within 316 million yen per year (including compensation of within 30 million yen per year for Outside Directors)” again after the Company’s transition to a Company with an Audit and Supervisory Committee. As in the past, this amount of compensation for Directors (excluding Directors who are Audit and Supervisory Committee Members) shall not include the employee salaries for Directors concurrently serving as employees.

This proposal has been determined after a discussion at a Board of Directors’ meeting, based on the advice of the Nominating and Compensation Committee, comprehensively taking into account the Company’s business scale, the compensation system for officers, the level of payment to officers, the current number of officers, future trends, etc. Accordingly, this proposal is deemed to be appropriate.

In addition, the policy for determining the details of compensation, etc. for each of the Company’s Directors is as described on page 34 of this convocation notice (available only in Japanese).

There are currently 10 Directors, but if Proposal 1 “Partial Amendments to the Articles of Incorporation” and Proposal 2 “Election of Nine (9) Directors (excluding Directors Who Are Audit and Supervisory Committee Members)” are approved as originally proposed, there will be nine (9) Directors (excluding Directors who are Audit and Supervisory Committee Members; including two (2) Outside Directors) after the Company’s transition to a Company with an Audit and Supervisory Committee.

This proposal shall come into effect when Proposal 1 “Partial Amendments to the Articles of Incorporation” takes effect.

Proposal 5: Determination of the Amount of the Compensation, etc. for Directors Who Are Audit and Supervisory Committee Members

Subject to the approval of Proposal 1 “Partial Amendments to the Articles of Incorporation,” the Company shall transition to a Company with an Audit and Supervisory Committee. Accordingly, pursuant to the provisions of Article 361, Paragraphs 1 and 2 of the Companies Act, the Company proposes that the amount of compensation, etc. for Directors who are Audit and Supervisory Committee Members be set to within 60 million yen per year, taking into account various circumstances such as the economic conditions. The specific amount, timing of payment, etc. to each Director who is an Audit and Supervisory Committee Member shall be determined through discussions with Directors who are Audit and Supervisory Committee Members.

This proposal has been determined based on the advice of the Nominating and Compensation Committee, comprehensively taking into account the Company’s business scale, the compensation system for officers, the level of payment to officers, the current number of officers, future trends, etc. Accordingly, this proposal is deemed to be appropriate.

If Proposal 1 “Partial Amendments to the Articles of Incorporation” and Proposal 3 “Election of Three (3) Directors Who Are Audit and Supervisory Committee Members” are approved as originally proposed, there will be three (3) Directors who are Audit and Supervisory Committee Members after the Company’s transition to a Company with an Audit and Supervisory Committee.

This proposal shall come into effect when Proposal 1 “Partial Amendments to the Articles of Incorporation” takes effect.

Proposal 6: Introduction of Performance-Based Stock Compensation Plan for Directors (excluding Directors Who Are Audit and Supervisory Committee Members and Outside Directors)

1. Reasons for the proposal and reasons for deeming it to be appropriate

At the 62nd Ordinary General Meeting of Shareholders held on June 24, 2015, the introduction of the “Board Benefit Trust (BBT)” performance-based stock compensation plan for Directors and Corporate Auditors (including Outside Directors and Outside Corporate Auditors) of the Company (hereinafter referred to as the “Plan”) was approved, and that has continued to this day. In line with the Company’s transition to a Company with an Audit and Supervisory Committee, subject to the approval of Proposal 1 “Partial Amendments to the Articles of Incorporation,” the Company hereby requests for approval to abolish the current compensation category related to the Plan for Directors and Corporate Auditors, and to introduce a new compensation category related to the Plan for Directors (excluding Directors who are Audit and Supervisory Committee Members and Outside Directors; hereinafter referred to as “Directors”).

This proposal is a formality conducted in line with the Company’s transition to a Company with an Audit and Supervisory Committee, and the contents of the compensation category related to the Plan are effectively the same as those approved at the 62nd Ordinary General Meeting of Shareholders held on June 24, 2015. As with the current Plan, the purpose of this proposal is to raise the willingness of Directors to contribute to improving medium- to long-term business performance and raising corporate value, by further defining the linkage between Director compensation and the Company’s business performance and stock value. Since it is consistent with the policy for determining the details of compensation, etc. for each of the Company’s Directors (page 34 of this convocation notice; available only in Japanese), the contents of this proposal are deemed to be appropriate.

As a separate category from the compensation category for Directors (excluding Directors who are Audit and Supervisory Committee Members), for which approval is requested in Proposal 4, the Company requests for approval for specific calculation methods and specific details of the amount of compensation, etc. in this proposal, in order to pay stock compensation to the Company’s Directors. The determination of details of the Plan shall be delegated to the Board of Directors within the framework of 2. below.

There are currently 10 Directors who are eligible for the Plan, but if Proposal 1 “Partial Amendments to the Articles of Incorporation” and Proposal 2 “Election of Nine (9) Directors (excluding Directors Who Are Audit and Supervisory Committee Members)” are approved as originally proposed, there will be seven (7) Directors who will be eligible for the Plan.

The resolution of this proposal shall come into effect if Proposal 1 “Partial Amendments to the Articles of Incorporation” is approved as originally proposed, and the amendments to the Articles of Incorporation stated in Proposal 1 take effect.

2. Specific calculation method for and reference information on the amount of compensation, etc. based on the Plan

(1) Outline of the Plan

The Plan is a performance-based stock compensation plan where the Company’s shares are acquired through a trust (hereinafter the trust established based on the Plan shall be referred to as the “Trust”) using money contributed by the Company as the source of funds. The Company’s shares are then issued to Directors through the Trust based on points granted to Directors, in accordance with the Officer Stock Benefit Regulations established by the Company and the degree of achievement of business results, etc. In principle, Directors shall receive the issuance of the Company’s shares, etc. at the time of their retirement. If this proposal is approved, no new points shall be awarded to the two (2) Outside Directors in the future and they shall, in principle, receive the issuance of the Company’s shares, etc. at the time of their retirement.

(2) Persons eligible for the Plan

Directors of the Company (excluding Directors who are Audit and Supervisory Committee Members and Outside Directors)

(3) Calculation method for the number of the Company's shares to be paid to Directors and the maximum number thereof

Each Director shall be granted a certain number of points in each fiscal year, determined by taking into account their positions, the degree of achievement of business results, etc. in the relevant fiscal year, and in accordance with the Officer Stock Benefit Regulations.

The total number of points granted to Directors in a fiscal year shall be a maximum of 150,000 points. This figure was determined after comprehensively taking into account factors including the current level of compensation paid to the Company's officers, trends in the number of Directors and future prospects. Therefore, it is deemed to be appropriate.

The points granted to Directors shall be converted into one share of the Company's common stock per point during the issuance of stock benefits in (6) below (however, if a stock split, free allotment of shares, or a stock consolidation, etc. is conducted on the Company's shares after the approval of this proposal, in accordance with said ratio, etc., reasonable adjustments shall be made to the maximum number of points, the number of points already granted, or the conversion ratio of points to shares).

The number of points a Director has, which is the basis for calculating the number of shares to be issued, is calculated by multiplying the total number of points granted to the Director up to the time of retirement by a predetermined coefficient set for each specific reason for the retirement, and then finalized (hereinafter points calculated in this way are referred to as the "Finalized Points").

(4) Method of acquiring the Company's shares

The acquisition of the Company's shares by the Trust shall use the capital contributed in (5) below as the source of funds. Acquisitions shall be conducted through the stock market, etc., or by underwriting the disposal of the Company's treasury stock.

For the Initial Target Period (defined in (5) below), 300,000 shares have been acquired immediately after the establishment of the Trust as shares to be issued to the Company's Directors and Corporate Auditors. Details of the acquisitions of the Company's shares made by the Trust shall be disclosed in a timely and appropriate manner.

(5) Amount in the trust and number of shares to be acquired

The Company has established the Trust by contributing 387 million yen as the capital necessary for the five fiscal years from the fiscal year ended March 31, 2016 to the fiscal year ended March 31, 2020 (hereinafter referred to as the "Initial Target Period").

In line with the Company's transition to a Company with an Audit and Supervisory Committee, the Trust shall continue to exist as a trust with Directors who meet the beneficiary requirements as the beneficiaries.

Even after the expiration of the Initial Target Period, every five fiscal years until the termination of the Plan, the Company shall, in principle, make an additional contribution to the Trust for the next five fiscal years (hereinafter referred to as the "Next Target Period"). In the same manner as when the Trust was established, the number of shares required for delivery to Directors under the Plan is reasonably estimated, and the funds required for the acquisition of such shares by the Trust in advance are contributed to it. However, in the event of such additional contribution, if the Company's shares (excluding shares not yet issued to Directors among shares of the Company that correspond to the number of points granted to Directors) and money remain as trust assets on the day immediately

preceding the start of the Next Target Period for which such additional contribution is to be made (hereinafter referred to as “Remaining Shares, etc.”), the Remaining Shares, etc. shall be used as the source of funds for benefits under the Plan in the Next Target Period. Accordingly, the additional contribution amount for the Next Target Period shall be calculated after taking into account the Remaining Shares, etc. When the Company decides to make additional contributions, it shall disclose them in a timely and appropriate manner.

(6) Method of calculating the amount of stock benefits and compensation, etc.

If a Director of the Company retires and satisfies the beneficiary requirements set forth in the Officer Stock Benefit Regulations, said Director may, by performing the prescribed beneficiary finalization procedures, receive benefits from the Trust after retiring, in the form of the number of the Company’s shares determined according to the “Finalized Points” derived in accordance with the contents described in (3) above.

The basis of the amount of compensation, etc. received by Directors shall be the amount obtained from multiplying the total number of points granted to each Director at the time of point granting, by the book value of each share of the Company’s shares held by the Trust (however, if a stock split, free allotment of shares, or a stock consolidation, etc. is conducted on the Company’s shares, reasonable adjustments shall be made in accordance with said ratio, etc.). Pursuant to the provisions of the Officer Stock Benefit Regulations, in exceptional cases where money is paid, if the payment is deemed appropriate, it shall include the amount above.

Even if a Director has been granted points, they may not be able to acquire the right to receive benefits if a resolution of their dismissal is passed at a General Meeting of Shareholders, or if said Director retires due to a breach of their duties as a Director.

(7) Exercise of voting rights

All voting rights related to the Company’s shares in the Trust shall not be exercised, in accordance with the instructions of the trust administrator. Through such a policy, the Company strives to ensure neutrality in the exercise of voting rights related to the Company’s shares in the Trust, and avoid any effects on the Company’s management.

(8) Treatment of dividends

Dividends on the Company’s shares in the Trust shall be received by the Trust and used for acquisitions of the Company’s shares, or for the trust compensation, etc. paid to trustees of the Trust. In the event of termination of the Trust, dividends, etc. remaining in the Trust shall be paid proportionately to Directors who are in office at that point in time, according to the number of points held by each Director.

(9) Treatment when the trust is terminated

The Trust shall be terminated in the event of an occurrence such as the delisting of the Company’s shares, or the abolition of the Officer Stock Benefit Regulations.

Among the residual assets of the Trust at the time of its termination, regarding the Company’s shares, the Company shall acquire all the shares at no cost and cancel them by resolution of the Board of Directors. Among the residual assets of the Trust at the time of its termination, regarding money, the amount remaining after money is paid to Directors in accordance with (8) above shall be paid to the Company.
